

Monitoring Market Data

Monitor market data for securities, such as companies, indices, treasuries, currencies, futures, and commodities in the Market Watch display. You can manually enter identifiers, open an existing ticker list, or view Universal Screening results. To learn more about managing identifiers in Market Watch, see Online Assistant page 15884.

Click the **Lookup** button to select an identifier or type an identifier directly into the desired location.

Click the drop-down arrow adjacent to the **Lookup** button and select "Open Screen Results" to access securities that pass a screen saved in Universal Screening.

Right-click an identifier and select a report or market data display from the customized list to open and dynamically apply the identifier.

Double-click the **N** icon to view news for the identifier in the News display.

Double-click an identifier to apply the identifier to all the company-specific displays in the tab.

Save your column layout and access it from the Layout drop-down menu.

Right-click and select "Options" to customize your columns using data from your FactSet subscription or your proprietary data.

Press the **INSERT** key to insert a row. Press the **DELETE** key to remove an identifier, group, or row.

Right-click and select Options > Groupings to apply groupings. To create custom group headings, select a row and enter G:group_name for your securities.

TIP > To manage real-time alerts that notify you if specific criteria are met for an identifier(s), use Alert Manager (@AM). For more information, see Online Assistant page 15873.
